

# M. AMAN KHAN

## MOBILE APP DEVELOPER

### SUMMARY

With 3 years of development experience and 2 years specializing in Flutter, I possess a robust skill set for building cross-platform mobile applications. Proficient in the Dart programming language, I excel in creating visually appealing and responsive user interfaces using Flutter's architecture and widgets. My expertise includes state management techniques like GetX, ensuring seamless app experiences. Additionally, I am skilled in integrating APIs such as Firebase and RESTful services for efficient data handling. My focus on performance optimization and automated testing ensures the delivery of high-quality code. By staying updated on Flutter advancements, I am committed to providing innovative solutions for diverse industry verticals.

### SKILLS

- Flutter UI
- Integration (Restful API's)
- Interceptors
- Clean & Readable Code
- Flutter Services
- Social Logins
- Debugging
- Bug Fixes
- Unit Testing
- CI/CD Pipeline
- Isolate
- Firebase
- Flutter Packages
- Github

### EDUCATION

#### Intermediate

College / Ali College CS • 2023-Present

#### Diploma in Software Engineering

Aptech Learning • 2021-Present

### LANGUAGES

- English
- Urdu

### EXPERIENCE

#### Flutter Developer

ORIO TECH (BLUEX IT DEPARTMENT) • Feb 2024 – Present

- At Orio Technology, I develop and maintain cross-platform mobile apps using Flutter. My responsibilities include implementing UI/UX designs, integrating APIs, and ensuring high performance. I focus on enhancing app efficiency and user experience while staying updated on the latest Flutter trends.

#### Jnr Flutter Developer (App Designs)

Itistic Solutions • Aug 2023 – Nov 2023

- Developed and designed cross-platform mobile applications using Flutter. Created responsive and visually appealing user interfaces with Dart. Utilized state management techniques like GetX, focused on performance optimization and automated testing, and designed new and trending app interfaces.

#### Freelance MobileApp Developer

Fiver • Dec 2022 – Present

- Worked with clients on Fiverr, Upwork, and locally to develop mobile applications. Specialized in using Flutter to create responsive and visually appealing apps. Integrated Firebase and various APIs to enhance app functionality. Transformed designs from Figma to Flutter, delivering high-quality, user-centric mobile solutions.

## PROJECTS

---

- Shyp AI (Flutter)
- DealsAbad (Flutter)
- Pico Chat(Flutter)
- Rider App (Flutter)
- Jubilee Motor App (Flutter)
- EyeSpy(Flutter)
- OMS Management System (Flutter)
- Laptop Harbor (Flutter)
- Daily Expense Tracking (Flutter)
- Qr Scanner App (Flutter)
- Whats App Clone(Flutter UI)
- GMJ (Flutter)
